ALLPACK SIGNS

www.allpack.com.au

Company Overview

Allpack Signs was established in 2000 and manufactures a complete range of road and safety signs and equipment from its fully integrated manufacturing facilities in South Australia, Western Australia and branches in Victoria, ACT and Brisbane.

Allpack's portfolio of products range from temporary signage, standard regulatory signs to custom signage and associated traffic products.

Allpack is part of The Traffic Group of companies and has an established national coverage enabling competitive pricing and enhanced customer service.

The **Marquee manufacturing facilities** in South Australia (4500sqm) and Western Australia (2500sqm) offer localised manufacture of products, which is key in Allpack providing its clients with a level of service expected.

Allpack has developed **Rapid Response Units** across production and installation enabling fast turnarounds for emergency situations, offering risk minimisation and end user satisfaction through reduced downtime on instructional signage.
